Complaint Description

NorthStar Medical Distributors reported that several Ciprofloxacin Tablets 500 mg were received with damaged blister pockets. Approximately 120 tablets from batch CIP260418B were affected. The outer cartons appeared intact, but the blister foil on several strips showed small tears and visible loss of seal integrity.

Customer Request

The customer requested investigation of the affected batch and replacement of the damaged quantity. Please evaluate whether the issue may be related to packaging seal integrity or handling during distribution.

Additional Context

This document is synthetic demonstration data created for testing the complaint document-extraction workflow. It is not a real pharmaceutical quality record.
